Current projects at AB5S/7's secret garage lab-or-ey-tor-ee:

- (1) Roll-around racks for three Command Set and an ART-13 station.
- (2) AC power supplies and test jigs for working on TCS and Command Sets.
- (3) Audio chain for feeding carbon mike inputs with BC quality lo-z mikes.
- (4) Rubber room to live in if Kay and the kids add  
just one more project for daddy!

Here are two reprints of old catalogs in excellent condition.

1. RCA Radiolas Radiotrons and Accessories.

Although there is no date on it, it must have been originally issued in the early 1920s. The reprint is dated 1983. Nicely done on pasteboard.

2. CROSLEY Radio Apparatus.

There are no dates on this but again the original must have been issued in the middle 1920s. This is a reprint of an original in the Harold State Musical Museum in Florida. Very nice catalog with record of Crosley early radios that glowed in the dark.

Anyone interested please reply by E-Mail to dmedley@ix.netcom.com  
Please do not post responses on the mailing list. Thanks  
David Medley

Anyone glowbugging tonight on 1805khz?

I will try to have something up from 0100-0600Z or so, unless lightning gets too near (not likely). The band seems quite good lately.
